

**GRACE VERSUS FAITH MATTHEWA.DANIEL.**

**G**race is what God gives to us in order to possess what we don't deserve. Faith is how we appropriate all these things into our circumstances. We cannot do anything about God's part; it is completely up to him. God cannot do our part; that is completely up to you. If you have read to this point, I believe it may have cleared some things up. Very often these two are mixed up and then leads to accusation which are often misplaced. I learnt the basis of this message from Andrew Wommack (The balance between Grace and Faith) and have gone on to crystallise it from the word of God. This is a message for the church of the living God.

**Word for the Month**  
**“ FAITH AND PATIENCE PRODUCES AN INHERITANCE-HEB 6:12**

There are two realms that exist; the spiritual and the physical. The spiritual controls the physical. God operates in the spiritual and humans in the physical. (Ps 115:16). The connecting factor is faith. Faith pulls down all that God has so benevolently given. Faith has to be steadily applied without doubts and needs to be accompanied with love. Love is the ingredient that makes faith work and when mixed with patience obtains the promises. We have been given full reign here and we need to exercise full authority. When next you have the urge to question God, remember that it's up to you and that things happen at appointed time and in their season. Shalom.
