

DIVINE HEALTH VERSUS HEALING MATTHEWA.DANIEL.(TWITTER,FACEBOOK,FAITHBOOK,NETLOG)

Health is the state of our well-being. A measure of how we are at a particular point in time. It's an indication of our anatomy, physiology and mental state. Health concerns all human beings on earth and was definitely on the creators mind when he made us. One of the earliest instructions to man was to avoid ingesting a particular fruit. Our disobedience to that has marred our template significantly. The earliest mistake is a pointer to how our health is affected-Lust of the flesh, lust of the eyes and pride of life. (Gen 3:16, 1John 2:16).

Origin of Diseases

Disease, hardship and toil entered into our world as a result of Adams disobedience and humans started to die. (Gen 3:17). We were originally designed to live forever but the years got pegged to 120 years. It has been a tortuous battle against invaders that ravages the body since then. (Gen 6:3).

God's intervention

The lord found Noah to be faithful and started to deploy his plans to salvage human spirit, body and soul. He directly got involved in decimating the Egyptians because she was a symbol of demonic success and an affront on the creator. When he liberated them, the first directive was to ask for their complete obedience and in return, they will be spared the diseases afflicted on the Egyptians. (Exodus 15:26). God became our healer.

God sent the word.

When they were bitten by snakes in the wilderness, Moses was instructed to raise the bronze image which was to signify the coming of saviour that will hang on a tree and become the source of healing. God sent Jesus, the word, who became flesh and

arose with healings in his wings. (Ps 107:20, Mal 4:2). Jesus came to heal a broken world. He healed in every way, at all times and anyone who had faith in him. There is no disease that Jesus cannot heal and your belief in that name will still work for you today.

“Miracles are a part of our entitlement as children of God .Jesus came to confer that power on us. What is bewildering, is watching children of God pack the arenas across the world waiting on an individual to perform miracles.”

God's best.

The best option for a child of God is to be in divine health, body, soul and spirit. The beginning of the journey is when you give your life to Christ; this transforms your spirit divinely. The soul has to be continually subject to the influence of the word of God in order to keep it under check. You will need a life-long adventure of putting the soul under the influence of the Holy Spirit. The body also needs to be disciplined in order to get the best out of it. You need to watch what you eat, how much of what you eat and to constantly exercise your body so it can serve you in years to come. I did not know this fact and have been playing catch-up

for a long time. Many Christians erroneously believe that giving their

Word for the Month

“Surely I say to you, he who believes in me, the works I do shall he do and greater works than these shall he do; because I go to the Father.-JOHN14:12.

life is the end of all matters when it's just the beginning. A born again child of God may end up with a defective body if he is not taking good care of that body.

Miracle-led Ministries

Miracles are a part of our entitlement as children of God .Jesus came to confer that power on us. What is bewildering, is watching children of God pack the arenas across the world waiting on an individual to perform miracles. Mark 16:15-18, Luke 10:19 and many parts of the New Testament makes it clear that we have been empowered and yet many yield this position of power to become spectators. Miracles are meant to be our magnet to the lost and unbelieving world and yet many of these people are still unreached. Many of the cults today are built on some form of the miraculous or the other. Divine health is the goal, healing is a benefit. Shalom.
